**JARDINIER ANNOUNCES THE FORMATION OF THE JARDINIER TECHNICAL
ADVISORY COMMITTEE**

Garry Brown of Orange County Coastkeeper to Chair Committee

Fountain Valley, CA – July 20, 2007 – Today Jardinier Corporation announced the formation of the Jardinier Technical Advisory Committee. The purpose of the Committee is to advise Jardinier’s management team on technical issues related to the environment and assist with product development to promote water conservation and sustainable design.

The Committee is chaired by Garry Brown, President of Orange County Coastkeeper. Orange County Coastkeeper is a non-profit organization dedicated to protecting and preserving marine habitats and watersheds through education, advocacy, restoration, and enforcement. Working with Mr. Brown is Jerry A. King, Committee Vice Chairman, MWH Americas, Inc. Mr. King has more than 25 years of experience in water resources planning, management, and regulation with an emphasis on urban runoff management and control. Other Committee members include Roberta Jorgensen of Rossetti Jorgensen Architects, Daniel Copper of Lawyers for Clean Water, Richard Joaquim of Monarch International and Ellen Cross of Strategy Driver, Inc., Dr Richard Horner, Professor of Engineering at the University of Washington will act as consultant to the Committee

Commenting on the Committee, Mr. Brown stated, “Jardinier is looking to us to provide technical and economic validation of its products. Our goal is give the Company input and recommendations related to both the application and efficacy of the Jardinier’s water saving products after obtaining a thorough understanding of the technology involved.”

The committee will have both formal and informal meetings on a regular basis. It is anticipated that additional members will be invited to join the Committee.

Gene Nalbandian, CEO of Jardinier said, “We are extremely proud to be working with such an illustrious group of environmentalists and water specialists. We truly look forward to their involvement with Jardinier.”

About Jardinier: Jardinier is a recognized brand of energy saving, water conservation and irrigation products and services. Jardinier works directly with landscape professionals and property owners to create sustainable environments that add beauty, while conserving water and virtually eliminating water runoff. Jardinier provides turnkey solutions from design to assistance with installation and maintenance. Jardinier products are ideal for new installations and can be easily retrofitted into existing systems and designs.
